Announcing a FREE license of **ComputerEase**

Constructive-Solutions and ComputerEase have joined in a special limited-time promotion that will provide select contractors within New York to benefit from a copy of the latest software at No Cost!

The program is called 'Building for Growth' and is designed to help smaller contractors move up from 'starter' accounting packages to a true, easy-to-use, fully integrated Construction Management system. The logic is simple – we make an investment in you and as you grow and use the software for many years, we both benefit.

Here's what you'll receive:

Job Costing	Payroll
General Ledger	Accounts Payable
Accounts Receivable	QTools Report Writer
User Manuals	Quick-start Tutorial Guide
And more...	

Additional user licenses and modules are available if desired. Your only obligation is to pay for the first year's annual maintenance (which includes software updates and support) and an initial training package.

Please call me to see if you qualify for this special 'Building for Growth' program. Also, please check us out at: www.constructive-solutions.com and www.computerease.com.

Cordially,

John Collins, General Manager
