

# Construction Exchange Seminar

## Construction Technology and BIM

### WHEN:

December 15, 2016  
Registration opens at 7:45am  
and the presentation will be  
from 8:00am to 10:00am

### WHERE:

Construction Exchange  
2660 William Street  
Cheektowaga, NY 14227

### COST:

\$5 per person

Please return with payment to:  
Construction Exchange  
2660 William Street  
Cheektowaga, NY 14227  
Email: clogan@conexbuff.com  
Fax: (716) 875-4412.

This course will focus on Building Information Modeling (BIM) and other technology that is changing the construction business. Being able to effectively use this technology can be a significant competitive advantage. The agenda includes:

1. Understand technology and it's uses at preconstruction and the proposal stage
2. How BIM's can be used for Quantity Extraction
3. Using BIM and Scheduling for planning and logistics phases
4. BIM and VDC for Coordination
5. Mobile technology and it's uses in the field with BIM and project management
6. Understand the potential for laser scanning and ways to use it

### About the speaker

Mindy Hoffman is the Virtual Construction Manager at LPCiminelli. She received her Bachelors in Architecture and a minor in Digital Media from the University at Buffalo in 2006. As an Autodesk Certified Professional in Revit®, Mindy leads all the company's BIM efforts and specializes in Autodesk Revit®, Autodesk Navisworks®, Autodesk 3Ds Max Design®, and visualization. She is the in-house Revit® trainer and has presented/trained Revit® and BIM concepts to numerous clients and students. She has been incorporating VDC and BIM in the construction industry to produce better quality projects and has 14 years of experience using 3D CAD products.
