

Project Manager Development Program – *NEW FOR 2017!*

Unit 4: Risk Management

This course will help early-career project managers gain insight into the types and sources of risk, techniques for managing risk, the basics of insurance and bonding and how quality control/quality assurance plans help mitigate performance risk.

Following successful completion of Module 4, participants will have the ability to:

- Explain how risk changes over the different phases of a project
- Discuss the types and sources of risk in the construction phase of a project
- Identify techniques for managing risk, specifically risks that are the contractor's primary responsibility
- Describe how the scope and nature of risk management may vary based on project contracting method
- Identify the importance of warranty periods and liability tails
- Discuss the basics of insurance and bonding
- Explain the importance of documentation in controlling risk
- Describe how quality control/quality assurance plans help mitigate performance risk
- Explain how risk and profit are related
- Describe how different parties view risk on a project

About the Instructor:

Matt Sikora, LEED AP BD+C is a project manager with Turner Construction and serves as Co-Training Coordinator for the Buffalo office. He has worked on a number of high-profile projects over his 17 years with Turner, including most recently, Woman's and Children's Hospital, Millard Fillmore Suburban's two-story overbuild, and Citigroup's re-stack project.
