

Buffalo Construction Exchange Members are invited to a personalized presentation of our many software solutions.

constructive-solutions can help you with every aspect of Construction Accounting, Job Costing, Project Management, Work Force Planning, CRM and Estimating.

For over 20 years we have been trusted to help companies just like yours.

We are committed to meeting the specific needs of our clients.

We see your success as our success.

We understand the needs of construction companies. We know construction. Selecting the best partner to help you explore the many options that are available to you regarding software along with helping you manage your business, is one of *the most important decisions* you will make. We simplify the process and offer continual support to help you make the right choices for your company. Every company has different specific needs and every one of our clients is important to us. We take the time to learn about each of our clients so we can help them with their individual needs. Our software can be customized when necessary to fit the needs of our clients. The majority of our dedicated staff has worked in the construction industry and offer their experience and expertise to share with all of our clients on a day to day basis.

Local, Experienced, Dedicated Partner –

We offer you the tools for your construction company to continually profit and thrive.
