

Jennifer Starr- Online Plan Room Technician

Jennifer has been with the Construction Exchange since 2005.

She is responsible for making sure that the project manuals are broken out per specification section and that drawings are named in a timely fashion.

Jennifer also runs our copying services for blueprints and answers members questions or concerns about anything that has been posted to our Online Plan Room, including downloading issues or if they are just unsure on how to download the plans and specs in general.

When she is not working, she likes to start her vegetable garden from seed indoors in the Winter, so they can be planted in the Spring. Jennifer likes making fresh tomato sauce out of the tomatoes from the garden, and she freezes a lot of the vegetables and sauce to use throughout the winter. She also likes to share her harvest with family and friends. This year, she tried for the first time, pickling cucumbers and it was a hit with everyone!

Jennifer also likes to hang out with her 13 year old niece Haley and watch Netflix and football games together. She is also a fan of the Buffalo Bills and is also a New Orleans Saints Fan! Her favorite Player is Drew Brees.

Members can always reach out to Jennifer about project document uploads, downloads and printing at JStarr@conexbuff.com.
